CASOTE AND SAND CAVE including San Pietro al Monte in Civate

A slow but demanding excursion to discover the near and far past of this area at the foot of Monte Cornizzolo. Casote are ancient shelters on pastures now well restored.

The itinerary is part of the project [STORYTELLING BENCHES](#)

TECHNICAL DETAILS

Difference in altitude: 370m

Distance: 6 km

Maximum altitude: 639m a.s.l.

DESCRIPTION

A circular, quite demanding, itinerary at the foot of Monte Cornizzolo, starting from Pozzo hamlet in Civate, where Crotto del Capraio can be found.

The path runs up in the forest to see the well-restored casote which were once used by farmers as emergency shelters in case of sudden storms or to store tools to be used on pastures.

After reaching the viewpoint on Lecco and Annone Lake the path becomes narrower and slightly exposed in some very short tracks; please, contact the guide in case of any doubt. In a short time, we will reach San Pietro al Monte Basilica where we will rest and have lunch (packed lunch – fresh water source available according to season).

Visit of the Basilica.

The path down to Pozzo hamlet is rocky but easy, through the forest and erratic boulders. We will reach the Sand cave, a hole in the rocky wall which cannot be visited but which will give us an idea of karst phenomenon.

Excursion ends in Pozzo hamlet.

POINTS OF INTERESTS

- Casote, recalling of a near past, typical of Triangolo Lariano
- Basilica of San Pietro, a romanic jewel (including visit to interiors)
- Sand cave and karst phenomenon
- Tasting of local products (optional)

DIFFICULTY LEVEL

Terrain: demanding attention; narrow rocky paths; Si consiglia uso di bastoncini da trekking. Trekking poles recommended for stability.

Gradient: moderate and constant to the max altitude.

Itinerary suitable for adults and children/teens over 12 in good health conditions and used to walk on mountain paths facing a slight to moderate difference in altitude (400 m). Sure footedness is required.

Dogs must be on a leash owing to the presence of wild animals in the wood and out of respect for other participants who could be afraid of or annoyed by them. Do not hesitate to contact the Guide.

RESPONSIBLE TOURISM

The excursions I offer also aim at **supporting local economic activities** and at **living unique experiences** closely in touch with and with respect to people and places.

That's why they often include tasting experiences and/or chance to buy local products directly from producers, mainly small local activities working hard and with passion to keep traditions alive;

That's why groups I accompany are usually small ... in order to meet and live local people and enter their lives and the calmness of the place on tiptoes.

The Cape Town Declaration in 2002 recognises that Responsible Tourism takes a variety of forms, it is characterised by travel and tourism which:

- minimises negative economic, environmental and social impacts;
- generates greater economic benefits for local people and enhances the well-being of host communities, improves working conditions and access to the industry;
- involves local people in decisions that affect their lives and life changes;
- makes positive contributions to the conservation of natural and cultural heritage, to the maintenance of the world's diversity;
- provides more enjoyable experiences for tourists through more meaningful connections with local people, and a greater understanding of local cultural, social and environmental issues;
- provide access for people with disabilities and the disadvantaged;
- is culturally sensitive, engenders respect between tourists and hosts, and builds local pride and confidence.
