## CONCA DI CREZZO ALPINE LAKE AND CENTURY-OLD CHESTNUT TREE

Nature is telling us an interesting story.

A circular itinerary in nature running from the small lake in Conca di Crezzo decorated by reeds, up to view point on Lake Como and eventually to Mount Castel di Leves along the Monte Oriolo.

In this season the forest is letting sunrays penetrate and illuminate its underbrush and letting us admire a wonderful view on surrounding mountains and the lake.

The blooming underbrush with white and rose Helleborus in late winter, the Buncava century-old chestnut tree (more than 300 years old) standing high and proud in the forest, the Grigna mountain chain observing us all along the path, ancient and well-kept chestnut forests where "Woody the woodpecker" still lives, and the lake resting among impervious mountains.

Back to Conca di Crezzo Lake where I will suggest you a local product tasting accompany by handmade beer DuLac.

## RESPONSIBLE TOURISM

The excursions I offer also aim at **supporting local economic activities** and at **living unique experiences** closely in touch with and with respect to people and places.

That's why they often include tasting experiences and/or chance to buy local products directly from producers, mainly small local activities working hard and with passion to keep traditions alive;

That's why groups I accompany are usually small ... in order to meet and live local people and enter their lives and the calmness of the place on tiptoes.

**The Cape Town Declaration** in 2002 recognises that Responsible Tourism takes a variety of forms, it is characterised by travel and tourism which:

- minimises negative economic, environmental and social impacts;
- generates greater economic benefits for local people and enhances the well-being of host communities, improves working conditions and access to the industry;
- involves local people in decisions that affect their lives and life changes;
- makes positive contributions to the conservation of natural and cultural heritage, to the maintenance of the world's diversity;
- provides more enjoyable experiences for tourists through more meaningful connections with local people, and a greater understanding of local cultural, social and environmental issues;
- provide access for people with disabilities and the disadvantaged;
- is culturally sensitive, engenders respect between tourists and hosts, and builds local pride and confidence.
