IMMAGINI DELLA GALLERIA

Let your emotions explode in front of such an immense view which seems to be incredible

A circular medium-demanding itinerary to discover the Bellagio region far from the crowd of the main Hamlet, where once D'Eryl nobles loved to spend some time in the countryside; an area where the signs of the erosion of sedimentary and limestone rocks is clearly evident even if folded by Nature; an area telling interesting stories of an agricultural and cow-breeding past, up to the wonderful terrace where you can admire the lake in all its beauty and magnificence.

TECHNICAL DETAILS

Difference in altitude: 450 m

Distance: 7 km

Maximum altitude: 1018 m a.s.l.

The itinerary starts in a small village hidden among the soft hills of Triangolo Lariano, the mountain area among the 2 branches, and goes steeply up to the top. We will face the path slowly to observe and discover the beauty of the forest surrounding us.

The effort will be rewarded by the immense view you can enjoy after the last short part of the path (30 m) which is a little bit exposed. Argegno followed by Comacina Island and the wonderful Villa del Balbianello; Bellagio promontory imposing to the lake and dividing it into 2 different branches; mountains surrounding like a crown the quiet waters of the lake; Varenna and its cypress protruding like elegant pencils.

Packed lunch in Nature and return along a different path where gradient is easier, through forests facing the Grigna mountains, hamlets scattered on the hills where cows still graze.

At the end we will enjoy an Italian aperitif with lake view at 5 min driving.

DIFFICULTY LEVEL

Terrain: rocky mountain paths sometimes narrow.

Gradient: moderately demanding to the top.

Attention points: demanding ascent and very short exposed area (30 m) to reach the top.

Itinerary suitable for adults and children/teens over 12 in good health conditions and used to walk on mountain paths, considering difference in altitude and distance to be walked.

Dogs must be on a leash owing to the presence of wild animals in the wood and out of respect for other participants who could be afraid of or annoyed by them. Do not hesitate to contact the Guide.

RESPONSIBLE TOURISM

The excursions I offer also aim at **supporting local economic activities** and at **living unique experiences** closely in touch with and with respect to people and places.

That's why they often include tasting experiences and/or chance to buy local products directly from producers, mainly small

local activities working hard and with passion to keep traditions alive;

That's why groups I accompany are usually small ... in order to meet and live local people and enter their lives and the calmness of the place on tiptoes.

The Cape Town Declaration in 2002 recognises that Responsible Tourism takes a variety of forms, it is characterised by travel and tourism which:

- minimises negative economic, environmental and social impacts;
- generates greater economic benefits for local people and enhances the well-being of host communities, improves working conditions and access to the industry;
- involves local people in decisions that affect their lives and life changes;
- makes positive contributions to the conservation of natural and cultural heritage, to the maintenance of the world's diversity;
- provides more enjoyable experiences for tourists through more meaningful connections with local people, and a greater understanding of local cultural, social and environmental issues;
- provide access for people with disabilities and the disadvantaged;
- is culturally sensitive, engenders respect between tourists and hosts, and builds local pride and confidence.

Programme

- 8.30am meeting point at Canzo cemetery car park to share cars and reach the path starting point;
- 8.30am meeting point at Canzo cemetery car park to share cars and reach the path starting point;
