DESCRIZIONE DEL PRODOTTO

NEBBIOLO, ERBALUCE AND OLIVE OIL IN THE CANAVESE AREA, IN PIEDMONT, CLOSE TO VALLE D'AOSTA BORDER

An itinerary which will fascinate you for the uniqueness of pergola where vines are raised in this area of Piedmont, close to Valle D'Aosta border. Here rocks and wind create a peculiar microclimate where olive oil and vineyards can grow very well.

This area is known as Canavese, an historic region in Piedmont from Turin to Valle D'Aosta and from Biella to Vercelli, partly covering the inner depression of Ivrea morainic amphitheatre. The morainic amphitheatre is one of the most important morainic complexes having glacial origins in the Alps and in the world.

It is possible to stay overnight (see section Programme for details)

The itinerary runs partly along the well-known Via Francigena which we will leave in order to immerse in the Nebbiolo and Erbaluce vineyards under Pergola and Topioni: you will be amazed by the unique landscape and the kindness of young winemakers.

Responsible Tourism

RESPONSIBLE TOURISM

The excursions I offer also aim at **supporting local economic activities** and at **living unique experience**; closely in touch with and with respect to people and places.

That's why they often include tasting experiences and/or chance to buy local products directly from producers, mainly small local activities working hard and with passion to keep traditions alive; That's why groups I accompany are usually small ... in order to meet and live local people and enter their lives and the calmness of the place on tiptoes.

The Cape Town Declaration in 2002 recognises that Responsible Tourism takes a variety of forms, it is characterised by travel and tourism which:

- minimises negative economic, environmental and social impacts;
- generates greater economic benefits for local people and enhances the well-being of host communities, improves working conditions and access to the industry;
 - involves local people in decisions that affect their lives and life changes;
- makes positive contributions to the conservation of natural and cultural heritage, to the maintenance of the world's diversity;
- provides more enjoyable experiences for tourists through more meaningful connections with local people, and a greater understanding of local cultural, social and environmental issues;
 - provide access for people with disabilities and the disadvantaged;
- is culturally sensitive, engenders respect between tourists and hosts, and builds local pride and confidence.
